The day began with Adeleke and Ejiro leading assembly with the governors watching them. Afterwards each class was dismissed to their classrooms to do their work. As Year 6 were teaching their classes the Governors and the Headteacher from Our Lady of the Rosary went around and assessed the standard of the teaching. Ejiro and Adeleke then embarked on a learning walk. At 11:20 Ejiro and Adeleke went into a meeting with the governors and discussed the learning standards in the school, the concept of Golden Time and Enterprise Day itself. As usual, we found marking the hardest part of the day - how teachers do it every day is still a mystery! I guess it's safe to say that teachers do way more than we give them credit for.
